

ALEXANDRIA.

SATURDAY EVENING, MARCH 16.

In reply to an application of the Mayor of Fredericksburg, in relation to the municipal election to be held shortly in Fredericksburg, he was unable to obtain a decision either from the President or Attorney General, as to whether the election is or is not to be held under the Military bill; but was informed that Gen. Schofield had been put in command in Virginia, and the question is, of course, com mitted to his decision. It is believed that the election will be under the Military bill. At a meeting of the colored people, one of the speakers advocated an organization, drawing the lines, selecting a candidate for Mayor, and giving the white people one-half of the Com mon Council. Another said he was opposed to drawing the lines of demarcation between the whites and blacks. "That he had lived there for years, and knew the whites would do full justice to the colored man. He said the latter were getting their living from the white men; that he was opposed to drawing lines; was opposed to a distinct organization, and in favor of every colored man going to the polls and voting for his choice. He was in favor of voting for the party that gave him something to eat." It is understood that the colored people in caucus, have decided upon their ticket, have formed a Union League, &c., &c. They were to hold another meeting on Thursday night.

The new revenue law in relation to the manutacture of liquor, which went into operation on the 2d of March, has furnished more facilities for the perpetration of fraud than the orikinal act. It has resulted in merely establishing a nominal uniformity in the price of whiskey, which, many of the distillers facetiously state, is sold everywhere at \$2.40 per gallon; that "it goes off at a two forty rate."

A correspondent inquires "if there has been no contradiction of the account of the murder of a little girl in Detroit, by 'smothering her to death, because she was suffering from hydrophobia, caused by the lite of a mad dog?"-None, that we have seen. It remains uncontradicted. Our correspondent adds, that, "if the story is true, certainly, the Grand Jury in the place where the murder occurred, ought to investigate the matter."

A letter from a neighboring county in Virginia, says: "As an offset to the letter from a subscriber in Fairfax, let me say that I, too, was a soldier in the Confederate service, from the beginning to the end of the late war, that I was opposed to the call of a Convention by the Legislature, and that it has been my fortune, never yet to meet with an officer or soldier who did not agree with me in opinion!"
